## Padded Raised Toilet Seat

Based off design used by G.F.STRONG

2025 price \$950 (includes hardware)

Shipping from Vancouver Island is additional charge

- 2" finished padded seat thickness, made up of: ½" high grade plywood base, 1" thick EVA foam for durability, plus ½" medium density viscoelastic foam top layer.
- Aluminum mounting hardware has 3 height settings.
- Top of padded toilet seat can be set 5", 6" or 7" from top of toilet bowl edge to achieve required transfer height. (low option of 3" and 4" available)
- All foam and plywood is wrapped with a waterproof barrier before being upholstered with black 4-way stretch "All Sport Vinyl" and all edges sealed.
- Rust resistant brackets have slot to accommodate mounting to most standard and elongated 2 piece toilet bowls\*, and are supplied with stainless steel fixings.
- Fits most toilet bowls without removing flip up toilet seat.
- Weight capacity 220lb

\* The hardware fits over toilet bowl edges up to 2" wide.  
 Some newer, one piece toilets may have wider bowl edges at the rear.
